

Feedback Samples: Revise and Resubmit

Source Documents | Ricardo S. Vargas, MS | Broward College Online

This file contains original grading records showing my revise-and-resubmit cycle, in which students apply my feedback and resubmit their work until it meets the standard.

Each page that follows is a screenshot of the original Brightspace (D2L) grading record, provided so reviewers can verify the formatted feedback samples shown in the e-portfolio. My feedback and the students' comments appear exactly as recorded.

Privacy note: To comply with FERPA, student names, profile photos, file names containing student names, grades, and personal information have been covered with gray redaction bars. No other content has been altered.

Money leftover has no formula.

Please look at the rubric. You are missing formulas. Also, the chart needs to be in the same file, not a separate file. Correct and resubmit.

Finally - Small issue now - The information for the chart needs to come from the budget sheet not reentered.

Select A16:A29 and N16:N29 - once you select those two columns, then make the chart and move it to it's own sheet.
